

FROM DEVICE INTEGRATION TO REPUTATION: the individual's footprints in the digital age

Luana Finger, Unisinos

Questions

- How does device integration build a reputation in the digital age?
- How do social actors notice this reputation in their imagery constructions?

References

- Self (GOFFMAN, 2011);
- Contribution economy (PROULX, 2012);
- Device (FAUSTO NETO, 2008);
- Interactional device (BRAGA, 2011).

Methodology

- Participating observation with the researcher networks;
- Interviews with different profiles.
